Who am I?

Quintin Mintiens - 2 July 2001

My motto: "Keep learning, keep growing and keep innovating"

I'm Quintin Mintiens, a driven 23-year-old with a passion for Applied Computer Science and an insatiable curiosity for the latest technologies. With a strong foundation in data science and artificial intelligence, I'm actively working on freelance projects to apply my skills and tackle real-world challenges. Driven by a passion for continuous learning, I'm committed to staying at the forefront of technology and making a meaningful impact in the industry. Excited to share my journey as I keep growing and evolving in the world of tech!

ArcelorMittal (Stage)
Develop reliable energy models that:
- Can predict energy consumption
- Can compare the prediction with actual consumption (anomaly detection)
- Integration with process data for better anomaly detection.
